

# Behavioral Health and Substance Use Disorder Integration

Primary care settings are changing: patients come with not only physical but behavioral health and substance use disorder needs. Providers need the most up-to-date information and practices. In a series addressing the integration of behavioral health and substance use disorder in primary care, MPCA is bringing local and national experts to your front door to support you and your patients.

## UPCOMING TRAININGS

### MAT Training | February 8 - 9 | Butte, MT

Join the MPCA for Medication Assisted Treatment Training and Certification provided by the American Society of Addiction Medicine (ASAM). This training will include panels of national and local experts in SUD treatment and addiction. CME and ASAM Certification/Waiver are available.

### IBH and SUD : Promising Practices | March 8 | Butte, MT

This one-day training will highlight integrating behavioral health and treating substance use disorder in a primary care setting. Learn about screening tools, 'warm hand-offs', team roles and treatment, care coordination, documentation, and hear about examples from real clinics.

### MAT Training | May 8 - 9 | Great Falls, MT

Can't make the February MAT training? We're repeating it! Join the MPCA for Medication Assisted Treatment Training and Certification provided by the American Society of Addiction Medicine (ASAM). CME and ASAM Certification/Waiver are available.

## WHO SHOULD ATTEND

Entire Teams; MDs, DOs, APRNs, PAs, RNs, LPNs, MAs, peer support care managers, dentists, hygienists, pharmacists, LACs, LCSWs, and LCPCs
