The Hospital shall post a final schedule fifteen (15) days prior to the effective date of the schedule. For the purpose of scheduling, the following shall act as a guideline for the Hospital and the Nurses:

- a. A Nurse requesting time off must submit her request in writing to the Director of Nurses or designee at least thirty (30) days before the schedule is posted. Requests will be honored to the extent that staffing permits, and the Hospital will provide a response to time off requests three (3) weeks prior to posting. A Nurse who has worked the same holiday the previous year shall have priority of having that holiday off as staffing permits.
- b. To the extent that staffing permits, the Hospital shall schedule nurses so they have every other weekend off unless mutually agreed to by the Nurse and the Hospital. 2. The Nurse secures the approval of the Director of Nursing Service or designee, with such approval secured, when possible, at least twenty four (24) hours in advance; and
3. Overtime pay will not result from the exchange.

Exchange of work hours or work days without first obtaining such written permission shall be treated as a failure to report for scheduled work without prior notification. Approval of the Director of Nursing Service or designee for an exchange of scheduled shifts and/or days off will not unreasonably be withheld.

SECTION 13.7 - Pay for Testifying Nurses who are required to testify in court on behalf of and in support of the Hospital will receive their regular hourly rate of pay for the time they are required to be away for such purposes, including prep time required by the Hospital, minus any pay received as a witness.

If there is more than one volunteer, the Hospital will assign the overtime to the volunteer with the most seniority where skill and ability among the volunteers are equal. If the necessary number of Nurses performing the work in question cannot be obtained through voluntary means, the Hospital has the right to require overtime work and Nurses will be expected to perform such work on request provided that no Nurse shall be required to work in excess of sixteen (16) hours in a work day or in excess of twenty-four (24) hours overtime in a work week. The Hospital shall notify the employees as early as is reasonably possible prior to the time that the overtime work is required. All Nurses shall cooperate in the working of overtime. Section 13.11 - REPORTING, CALL-BACK, CALL-IN AND STANDBY PAY

1. An employee scheduled to work who will not be needed as scheduled will be notified one and one-half (1-1/2) hours prior to scheduled shift start. If unable to reach the employee by telephone, two (2) telephone calls placed to the employee shall be a sufficient effort to give notice.

2. An employee scheduled to work who was not notified not to report as provided in section 1 above who reports as scheduled shall be given a minimum of three (3) hours work or pay in lieu thereof. An employee working more than the three (3) hour minimum shall be paid for all hours worked. Unless the employee requests to leave within the first three (3) hours of the shift, then with managements' approval, the employee will be allowed to leave with standby pay – no minimums will apply.
3. An employee scheduled to work who was not notified not to report as provided in section 1 above, but not needed due to low census, who reports for work and agrees to go home due to lack of available work shall be paid three dollars (\$3.00) per hour for remaining time available to call-back and shall be paid the regular rate for hours worked. At the time the employee is asked to take call he/she shall be advised of the length of stand-by status, either 2, 4, 6, or 8, 12 hours. An employee will not be requested to remain on stand-by beyond the end of his/her scheduled shift unless it is by mutual consent or deemed to be an emergency by the Hospital.

If the work exceeds four (4) hours, then the minimum shall be six (6) hours. Over six (6) hours shall be guaranteed eight (8) hours of pay. If the employee request to leave and it is granted by mutual consent of management, the employee shall only receive overtime pay for actual time worked and waive his/her right to the guarantees.

If such employee has already completed his/her normal workday when called back, of eight (8) ten (10) or twelve (12) hours, the pay for after-hours work shall be at the overtime rate. If an employee in said department is sent home due to low census and is recalled he/she shall be paid a minimum of one (1) hour's pay at time and one-half (1-1/2).

5. An employee required to be on standby shall be paid two dollars (\$2.00) per hour for all hours scheduled to be on standby. Employees shall not be required to be on standby on consecutive weeks if employee has been on standby for five (5) days in one week except in cases of emergency or where patient care would be compromised if employee was not on call.
6. Nurses on-call will be available to report to work within thirty (30) minutes of being called in to work. If circumstances require more time by on-call nurse, charge nurse must be notified as soon as possible.

SECTION 13.12- Low Census Due to economic reasons or fluctuation in patients census, the Hospital may relieve Nurses from duty or direct them not to report for duty. If a Nurse is sent home on low census the Nurse will be automatically placed on call. If a Nurse has reported for work without prior notification to stay home and is then relieved of work because of low census, that Nurse shall be paid a minimum of two (2) hours pay or actual time worked whichever is greater. If the hospital requires the employee to take low census and the employee is called back, the nurse is paid at 1.5 times the regular pay for the minimum of 2 hours or actual time worked whichever is greater. If the employee requests to take low census, and it is granted by management, then the nurse is paid at the regular hourly rate of pay for call back. When time permits, volunteers will be sought first. If no Nurse volunteers, low census will be assigned according to seniority where skill and ability are equal, beginning with the least senior Nurse scheduled per shift. With the next occurrence, the second least senior nurse will take low census until all nurses have gone through the rotation. If the Nurse is called off on low census, she will continue to accrue all benefits that she would have accrued if she had worked.

Nurses assigned to low census day off shall not be required to remain available beyond the time she is called off to work unless the Hospital specifically places such Nurse on call. Two telephone calls to the employee's residence shall be deemed notice not to report to work. Vacation days may not be taken in lieu of low census days.
