Broadband Pay Plan Provisions

This agreement represents the parties' full and complete agreement for all provisions of the Broadband Pay Plan under the term of this contract.

Section 1. Across the Board Pay Adjustments. All employees covered by this collective bargaining agreement shall receive a \$0.50 an hour pay increase effective the first day of the first complete pay period that includes January 15, 2016 and a \$0.50 an hour pay increase effective the first day of the first complete pay period that includes January 15, 2017. The increases shall apply to the employee's base pay.

Further, in accordance with Section 2-18-303(4)(a)(i), these adjustments will not be provided to employees until the State receives written notice that the employee's collective bargaining unit has ratified the agreement. If that notice is received after the effective date of the pay adjustment, the adjustment will be paid retroactively.

Section 2. Health Insurance. The State of Montana agrees to increase the employer's share of the individual health contributions for group benefits by 10% (to \$976 a month) from January 2016 through December 2016 and by 8% (to \$1054 a month) from January 2017 through December 2017.

Section 3. Longevity. All of the calculations are base rates and not inclusive of longevity.

Section 4. Hiring rates. Employees new to state government will typically be hired at the entry for the occupation. In determining a new employee's hiring rate above entry, the Supervisor, or designee, shall consider criteria such as: the employee's job-related qualifications and competencies; existing salary relationships within the job class, band and work unit; department affordability; and the competitive labor market.

Section 5. Training Assignments. The Supervisor or designee may establish written training assignments to enable an employee to gain the additional experience and training required for the job for a period of time not to exceed two years. At the completion of the training assignment, the employee's pay will be set no less than the entry rate of pay for the occupational pay band.

Section 6. Market-based pay: Pay awarded to employees based on comparisons to how other employers compensate employees in similar jobs. Market-based comparisons consider not only base pay, but also other types of compensation and benefits having a definable dollar value. The Department may consider market-based pay adjustments on a case-by-case basis.

Section 7. Competency-based pay: Pay based on an assessment of an employee's job-related competence. The Department may consider competency based pay adjustments on a case-by-case basis.

Section 8. Results-based pay: Pay awarded to employees or employee teams based on accomplishments. Results-based pay may be awarded for specific outcomes or outputs. The Department may consider results based pay adjustments on a case-by-case basis.

Section 9 Strategic pay: Pay awarded to attract and retain key employees with competencies critical or vital to achievement of the Department's mission or strategic goals. The Department may consider strategic pay on a case-by-case basis.

Section 10. Situational pay: Pay based on circumstances that occur that are not encountered in either the majority of jobs in state government or jobs used to make market comparisons. It is intended to address difficulties in recruitment and retention. It may be considered when atypical requirements exist in a position, for example, unusual hours, extreme physical demands, or environmental hazards that are causing recruitment and retention problems. The Department may consider situational-based pay on a case-by-case basis.
